

DUKE OF YORK.

247

His Royal Highness the Duke of York who now also holds the rank of Admiral, inspected the guard of honour at a memorial parade of the R.N.V.R on the Horse Guards Parade. His Royal Highness also shook hand with some of the ex-officers and men before a wreath was placed on the R.N.D Memorial.

JONKER DIAMOND.

The Jonker Diamond was the largest uncut precious stone in the world --- worth something in the neighbourhood of a quarter of a million --- and the Belgian expert Lazare Kaplan is going to ^{break} ~~exit~~ it up. When he breaks it, one slight mistake will splinter it into a million worthless fragments, so hold your breath! But he didn't make the mistake so now the Jonker will be sold as twelve stones --- worth twice as much as before.

MILLION VOLT SPARK.

In the Queen Mary College they're going to test a million volt electric spark. To me it looks more like a worm doing the rumba. Hot-cha!
