

SPEEDBOATS AND CRAZY CARS.

b Washington --- the speedboat kings roared up the choppy waters of the Potomac River in the tenth annual race for the President's Cup. Cutting the muddy water like nautical whippets --- these racing skippers know all there is to know about porting the helm at fifty miles an hour. The climax of the race held a surprise --- for a six cylinder engine took the Cup from under the nose of the 24-cylinder champion.

On land at Springfield Massachusetts there's a thrill a minute too. First the motor cycles riding through flame ----- and then a new trick to play with a new car. Hold your breath and watch this amazing slow-motion picture of a crazy driver in action..... trying to qualify for a bed in a hospital. Here's the driver --- he rather likes it!

Christening Duke of Wellington

Brigadier General Turner was present at Halcyon for the naming ceremony which christened the new Royal Scot class locomotive Duke of Wellington. After the ceremony ~~the General~~ ^{Gen.} Gen. Turner & the Mayor inspected the driver's cabin & presented the driver with silver cigarette cases.
