

355-

ROOSEVELT.

~~Texas~~ --- America's genial President is never more genial than when he's on a fishing holiday. And whatever he catches he never exaggerates. But ~~for the people who greeted him at Galveston~~, he had a brand-new fishing story.

BUS SMASH.

Manchester --- There were many lucky escapes when a motor-coach crashed into Victoria Station. Four passengers were in the coach, but the worst sufferer seems to have been the station itself. The approach roof fell down on to the coach. No parking.

FIRE FIGHTERS.

New York City --- In Battery Park 29 new fire trucks gave a demonstration of how to fight the flames. Some of the world's highest ladders were used to pump 30,000 gallons of water 150 feet into the air. It didn't prove anything, but it gave the firemen exercise and it gave the spectators a thrill.
