

MALCOLM CAMPBELL.

385

After breaking the water-speed record on Lake Maggiore, Sir Malcolm Campbell broke it again with a speed of nearly 130 miles an hour. ~~Afterwards he~~ said a few words for Gaumont British News. ~~2000~~  
DONINGTON. T.T.

This year for the first time the Tourist Trophy race was held at Donington Park near Derby instead of round Belfast. The ~~main~~ course was specially extended for the occasion. The laps now measure over three miles, and the total distance is 312 miles. ~~Donington provides one of the most exacting of all road-racing circuits.~~ The winner was No. 10 --- Comdotti --- and his time was four hours, thirty-five minutes. One of the drivers tried to start his car for two hours and a quarter. In the end he had it vaccinated. ✓

Speed wizards were busy at Herne Hill too, where they held the twenty-fifth annual meeting of the champions. But the most exciting event of the day was the race for the penny9farthing bicycles. This race is intended to perpetuate the memory of the old type of machine, and it certainly does. Anybody who rides one retains a deep-seated impression of it. The winner was Mr G. Swann. He's a great man on the Penny Farthing --- but he wouldn't beat old George on his threepenny bit. ✓
