

At the Hague --- a royal wedding. Princess Juliana of Holland was married to Prince Bernhard. Bmissels was held in the grip of rioting over the amnesty law. In America there was rioting when steel workers came out on strike. Trouble again with strikers from car factories and canneries. The hand of friendship --- Mussolini and Hitler smiled when Il Duce met the Fuehrer to form the Rome-Berlin axis. But there was Spain. Throughout the year crisis after crisis hinged upon this civil war. ^{Spain} Spain divided into two camps. ^{Partisan camps, refugees were rescued upon the night} Europe came near to being caught in the toils of this war --- and Britain for the sake of safety decided to spend five hundred millions upon re-armament. War again reared its ugly head in the Far East. Japan invaded China, bombing and bombarding, while the retreating Chinese set fire to the ground they had lost. Daily air raids were the meat and drink of China --- only occasionally was a raider shot down in flames.

Floods overwhelmed the southern states of America in an all-devouring tidal wave. Mississippi and Ohio burst their banks --- Louisville, Memphis, Lawrenceburg, Evansville --- these and a hundred other towns were submerged to a depth of many feet. On sea, on land and in the air, fire took its annual toll. Most terrible of all this year's disasters --- the explosion and fire in the airship Hindenburg --- one of the grimmest ^{tragedies} ~~pictures~~ ever filmed. All these pictures were brought to you by the G.B. News cameramen. This review we offer ~~you~~ as a tribute to their skill and courage --- the men whose daily task is to look upon death --- and take a picture of it.
