

4521
SYDNEY SHOW.

Lord Wakehurst, the Governor-General of New South Wales, opened the famous Sydney Show which this year anticipates a record attendance. Though the horse may be allowed to decline in other countries, in Australia he is a king, and the magnificence of the showground is a fit setting for royalty. It is the horse's day of days, and one of the most pleasing features of it is the foursome jump. Faultless riding and faultless timing --- an object lesson in rhythmic movement.

U.S.FLEET IN STORM.

America's Fleet is out in the Pacific Ocean --- but the sailor wants it on record that the Pacific is not peaceful. Returning from manoeuvres, ^{they were met by} a half a hurricane ~~spring up~~... a new battle for the men-o'-war to win. Even the 30,000 tonners pitch and roll like rowboats when Neptune gets restless, so clear decks for action! With a yo-ho -- blow the man down!
