

AIR CARNIVAL .

570

2
There's a place called Birmingham in Alabama, and it's here that they held the annual Air Carnival. They start off by choosing Miss American Aviation --- and they crown her queen of the Carnival.

Now --- on with the air meet. Here's an old crate of 1909 vintage --- but it still flies.

Flying upside down --- spectacular, and dangerous too when he's so near the ground.

A pilot climbs out of his plane, ^{and} re-starts a stalled propeller in mid-flight --- and that takes nerve.

And a zoom with smoke to finish on ----- It's only a stunt, but he only a few yards from terra firma and a few seconds from the next world.
