

LIFEBOAT.

✓ 579

In New York an inventor demonstrates a new lifeboat which
launches itself on the catapult principle. The catapult is ~~work~~
worked by compressed air. So stand back --- for here she goes!

Don't look now, but I think it's gone wrong

Man the lifeboat! ~~Man the lifeboat!~~

Man the lifeboat my foot --- you'd be better off ~~sinking~~
in the wreck!
