

585  
BRAZILIAN DESTROYER.

Southampton --- a new destroyer built for the Brazilian Navy was launched by Senhora Galliez, acting for the wife of the

Brazilian Minister of Labour. Six ~~thousands~~ of these vessels are being built for the Brazilian Government, on the lines of British destroyers of the H class. Their speed is 35½ knots. ~~THE~~ SCHOOL.....OF CANOES.

Cirencester --- the boys of Rendcomb College have a canoe club which is part of their sporting curriculum, and they're all most expert at handling their frail craft. Keeping the right way up in a canoe is not so easy as it looks --- you must keep perfectly upright. ~~But when you're at school, of course, you never really want to bend over.~~ *Boy - Bend over!*

FORT BLOCKHOUSE.

Fort Blockhouse --- at the chief base of submarines in Portsmouth, nearly 100 M.P's watched a demonstration of the Davis Escape Apparatus. The party included Lord Stanhope, the First Lord of the Admiralty, and Mr Geoffrey Shakespeare, Parliamentary Secretary to the Admiralty. All details of this method of escaping from a sunken submarine were shown to them.
