

QUEEN'S BIRTHDAY.

585

From Glamis Castle in Scotland came the daughter of Lord and Lady Strathmore --- the Lady Elizabeth Bowes-Lyon who grew up to be the bride of the Duke of York. In those early days the young Duchess quickly won the hearts of the people of this Empire with her charm and her ready smile --- and the Coronation set the seal upon the affection in which ~~the~~ Her Royal Highness had been held. But since that memorable day, ~~when Lady~~ and the ceremony that made her Queen Elizabeth ~~mark~~ her Majesty has gone from triumph to triumph. On the visit to France and more recently on the Canadian-American tour, the Queen has earned our gratitude and good wishes. So on this birthday, may we ~~express our~~ wish her many many happy years to come.
