

POWER AND SHEARER.

London --- a visitor from Hollywood is Tyrone Power, who really needs no introduction in the cinema. When he made a personal appearance in London he was nearly torn to pieces by silly people. *John* Norma Shearer is also in Europe --- these charming studies of the famous star came from Paris, where she was allowed to remain intact. PLANE ENDURANCE.

Illinois --- Here is another endurance flight --- and it's a new record. Two airmen brothers, Humphrey and Hunter Moody, remained in the air for 14½ days. They refuelled by picking up petrol in cans from a car. For three hundred and forty four hours these brothers sat in a roaring cockpit to win long-distance fame --- and their plane had a small engine of only 55 horse power. BLESSING PET DOGS.

London --- more than 100 dogs were taken to St Thomas More's Church in Hampstead for blessing by Father Bernard Whelan. This was the day of St Roche, patron saint of dogs. It was not a service, but a blessing after a service, but naturally the difficulty was to keep the congregation in order. JAP WAR IN MONGOLIA.

Mongolia --- scene of another undeclared war, this time between the Japanese in Manchukuo and Soviet Russia. War has been going on here for quite a while -- in a part of Central Asia so remote that it is hardly heard of in the western world. There's a Mongolian prisoner, caught despite camouflage; and the first thing for him is a good haircut --- very thorough, these Japanese.
