

PLANES OVER NEW YORK.

2 Here is a pageant of air power over New York City. Great birds of war flying in formation over towering skyscrapers. See this impressive display of motion in the air- To celebrate the 30th anniversary of the first army plane. New York looked at this from the ground- our ~~PERISCOPE~~ camera shows it you from on high. This is symmetry of motion as planes fly close to planes above the roofs of tall Manhattan. America is ready to defend her own should the occasion arise.

AQUAPLANES.

3 From Santa Catalina Island in the blue Pacific to California's Hermosa Beach is a distance of some 44 miles. Over this gruelling course aquaplane aces roar at 50 m.p.h. and not a traffic cop in sight. Ups and downs, spills and escapes- *you must learn to take the rough with the smooth.* ~~girls take the bumps as well as boys.~~ For an hour and a half they take the choppy course- It's a grand way of ~~getting~~ getting about so long as you don't weaken.
