FRENCH AND ENGLISH T.U.C.

Members of the Anglo-French Trade Unionist Council paid a visit to a barracks somewhere in England where a French-Canadian Infantry Regt was training. ~~They watched with interest a display of physical stunts.~~ The delegation, which was accompanied by the G.O.C. of the Command, consisted of several distinguished visitors from France. ~~an interesting tour of the trenches was made, and~~ The party saw many stages of musketry drill and a New Zealand anti-tank battery under instruction. And Sir Kingsley Wood, Britain's indefatigable Air Minister, inspected a number of Polish airmen, hundreds of whom have joined the B.E.F., at a British aerodrome. These young aviators- refugees from the stricken lands of our gallant ally- were lucky enough to escape the Nazi invasion and arrived in this country by devious routes. They will be warmly welcomed to swell the ranks of our ever-growing Expeditionary Force.
