

KINGSLEY WOOD.

652

The Royal Air Force on parade for physical drill at an east coast resort. Sir Kingsley Wood was there to watch ~~the parade~~ and with him were Air Commodore Critchley and Air Commodore Peake.. The Air Minister took the salute ~~a-t~~ the march past --- and you will also recognise test captain Wilot; Officer Walter Hammond. This is another school for airmen --- and the report to date seems to be -- Excellent in all subjects. Now to an aerodrome in France --- Two officers and a sergeant pilot examine a trophy from one of the Nazi fighters shot down by them --- a machine gun. This was the patrol of three Hurricanes that attacked no less than nine Messerschmitts. They shot down one and possibly two of the new 110's --- and all returned safely as you see.
