AUSTRALIAN AIRMEN AND A.I.F.

Here are some more young men ready for training under the Empire Air Scheme --- Australians ⁱⁿ ~~who are come to~~ Canada to ~~do their bit~~. ~~They have all had preliminary training in the Commonwealth; now in~~ ^{there} ~~there~~ they will get the final polish that makes all branches of the Empire Air Forces second to none in the world. They look good, these young diggers; ~~and~~ they'll ^{win} ~~take~~ their wings as the knights of yesterday used to ~~maximize~~ win their spurs.

Australia does well for the army too. Here in Victoria is a grand review of thousands of young men ~~in~~ in uniform --- another contingent of the A.I.F. ~~The salute was taken by the Governor - General, Lord Gorman, himself a V.C.~~ They march in perfect step a symbol of how the whole Empire is in step.... of how the Empire will march until there's no more need for marching.
