

752  
JAPAN ARRANGES AN ARMISTICE.

These are the pictures of the armistice signed by French Indo-China and Thailand, which used to be called Siam. This border war has had every aspect of artificiality; it seems ~~totally~~ unreal beside the great conflict that engages half the rest of the world. But behind this apparently trivial dispute, stands the shadow of Japan, ~~engaged~~ <sup>with</sup> her policy of making China a land fit for Japanese <sup>heroes</sup> to live in.

The negotiations and signatures were made on board a Japanese warship in the harbour at Saigon. Thailand was represented by 5 <sup>Peacemaker</sup> delegates, French Indo-China by 5 ~~and~~ Japan the ~~mediator~~ by 7. It is understood that Japan is quite satisfied with the result.
