Motor-driven surf-boards

America: A new thrill sweeps into the famous Cypress Gardens, Florida - motor-driven surf-boards. A cross between the Aquaplane and an outboard motor-boat - they're full of power and easy to steer - if you can steer clear of trouble.

Well - Did we say trouble? ~~Well -~~.....they ~~just~~ made it, anyway!

Bouncing along on the briny, there's just room for three lines of traffic. ~~AND PARKING IS NO BOTHER~~  
~~Hey, you can't park here! Get back in the water~~  
AT ALL!
