

Austin "Gipsy"

Surrey: The tank-testing ground at Bagshot Heath was chosen for the first public trial of a new all-purpose transport ^{vehicle} ~~the Gipsy~~ ^{of one in two -} And whether it was climbing ~~one in two~~ gradients, or negotiating the toughest terrain - this "go-anywhere", "do-almost anything" ~~utility truck~~ utility truck came through with flying colours.

Years of ~~technical~~ research have produced a reliable, all steel vehicle - suitable for agricultural and industrial use.

Available with either a petrol or a diesel engine, the "Gipsy" ^{now} proves ~~that~~ ^{the} "go-anywhere" claim!!!

Western Germany

Western Germany: Having completed their initial training, small Naval units put to sea, off Flensburg, to take part in realistic battle manoeuvres.

The squadron is made up of ~~the~~ assault craft, built since the war.

The chief object of the exercise was to ~~provide~~ ^{provide} torpedo firing practice - using a small target boat... The torpedoes they used - were made in Britain.

Partisan anniversary

Rome: To mark the tenth anniversary of the Constitution of the Italian Republic, war-time partisans were given permission to commemorate their comrades, who died in the struggle for liberation.

350 ~~veterans~~ (all holders of the Partisans' Gold Medal) paraded to the tomb of the Unknown Soldier, where they paid homage to those who died.

~~However~~ Members of the Fascist Party, however, still regard the partisans as traitors: and this day of homage was marred by ugly demonstrations.

London Airport

London Airport: The passenger list of this York aircraft, arriving from Northern Rhodesia, was truthfully a mixed bag... ~~on board were~~

~~140 animals, of 140 different species, bound mostly for the Chester Zoo~~

The list included a ~~zebra~~ (the first of this antelope species to leave Africa), ^{140 ANIMALS IN ALL, BOUND MOSTLY FOR} ~~and some baby crocodiles~~ THE CHESTER ZOO. THESE ARE BABY CROCODILES - AND ~~lion cubs~~ lion cubs, just three months old, were bound for a famous circus...
