

COMET**Weist-Fitzgerald**

Britain's new commercial jet airliner -- the Comet III -- arrives in Honolulu on a globe-circling trial flight, and Hawaiians give the ultra-modern plane the old-fashioned island welcome.

Hula dancers greet the flyers, who have just clipped four hours off the commercial air speed record from Fiji to Hawaii.

The jet plane's crew and Capt John Cunningham get some lessons in a traditional Hawaiian custom.

From Fiji to Hawaii at four hundred eighty miles an hour in Britain's Comet.
