CROWNPRINCESS OF HOLLAND'S 18th BIRTHDAY.

1/2/56

PRINCESS CYCLES TO SCHOOL WITH SISTER.

In the morning of her 18th anniversary, Crownprincess Beatrix left the Royal Palace at Soestdijk on bicycle.

Together with her sister, Princess Margriet (13) she cycled to school at Baarn, a village situated at about 5 kilometres from the Palace.

On the happy day the two royal children were allowed to arrive a quarter of an hour later than the other pupils.

Princess Beatrix attends the 6th and final class of the "Baarns Lyceum" (a kind of secondary school) and she will have to pass her final examination in the coming spring.

When she succeeds, which is expected, because she is a very good and ambitious pupil, Holland will see her become a student of Sociology, at Leyden-University, at the end of the year.

ATTENTION: This material had to be pooled with Dutch T.V.
