Miss Grace Field,
News Editor,
Pathe News,
Oxford Street,
LONDON, W.1.

Dear Miss Field,

FACILITY VISIT TO SEFTON PARK TO SEE PRODUCTION OF ANTI-POLIO VACCINE
Thursday 30th May at 2.30 p.m.

The Company has pleasure in inviting you to be represented at a small press facility visit (to be limited to six or seven) to see the various stages in the production of Poliovirin, Glaxo's anti-poliomyelitis vaccine, at the Company's Virus Research Laboratories at Sefton Park, Stoke Poges, Bucks. The facility will commence at approximately 2.30 p.m. During the morning the Minister of Health (Mr. D.Vosper) will be visiting the laboratories to see the production of anti-poliomyelitis vaccine.

There will be general facilities for filming except that these facilities cannot be extended to the photographing of animals or the animal house.

Directions for reaching Sefton Park are attached. I should be glad to know in advance whether you will be represented and, if so, by whom, and whether you will be using the rail and taxi facilities.

Yours truly,
GLAXO LABORATORIES LTD.

G. R. Goodall, Esq.,
Press Officer,
Glaxo Laboratories Ltd.,
Greenford, Middx.

Dear Mr. Goodall,

Your letter to Miss Field, relative to a facility to visit Sefton Park to film the production of anti-polio vaccine, has been passed over to me.

May I say how glad I am to accept your kind offer. It is a pity that we were unable to film this a few weeks back, when we put out a polio story.

Needless to say I saw your 16 mm colour picture on this manufacture and I must say I was very impressed. Unfortunately, we were unable to use this material owing to the fact that 16 mm pictures do not make good 35 mm blow-ups.

Rest assured our cameraman will get through in the fastest time possible and will do his best not to inconvenience you too much.

Thanking you again for this facility,

I remain,

Yours sincerely,
ASSOCIATED BRITISH-PATHE LIMITED
