STEYNLAAN 5

22⁰
15SOAP - BOXES.-

At Amersfoort, a town celebrating its 700th anniversary, 30 soap-boxes were weighed. For cars surpassing a weight of a hundred kilogrammes no starting-licenses were granted.

The motorists started two at a time. It was all very real. Even in races like these accidents will happen.

The man at the wheel was not hurt, but his car was taken up by a big policeman. The 12 years old who won the race drove with the incredible speed of 25 miles p/h.

This Stirling Moss of the future was congratulated by a miss Holland of the future. There was another reward too: a brand-new bicycle.
