International Hairde competition
35 mm. developed positive : 18 meters - 60 ft

The annual international Hairde competition this year took place in Versailles, where a giant tent was built to house the crowds of spectators as well as competitors...

Coming from various countries, some from as far as the United States, the Figaros had several tests, among which a hairde on historical times, on the theme of the "Duchess of Lamballe". But the most extraordinary hair constructions were presented in the free-style contest...

Pictures speak for themselves.... and their fantasy has no limit,.. as well as their skill, but one wonders how the models manage to look lovely even under such tremendous and fantastic head-dresses...
