FRENCH TANKS IN ACTION.

We are privileged to visit one of the numerous Tanks Schools....
our Allies have established behind the lines.

These medium tanks are all being driven by new recruits
to the mechanised army....

men who are learning the control of powerful complicated
machines, and it doesn't matter what they meet.... deep trenches
or high embankments.... or trees.... they carry straight on.

Through the woods and out into the open country, and they're
still in line. In France as in Britain....the men and the machines
are ready.
