# ITALIANS BOMB HOLY LAND.

From Mount Carmel we see a pall of black smoke scarring the sky over Haifa, the Mediterranean Port in the ancient province of Galilee. An oil storage tank ablaze after an Italian hit-and-run attack, during which a Mosque and a Graveyard were badly damaged. The people of Palestine now sample Fascist methods as they gaze on the desecrated tombs.

Jewish Colonists created this modern city of a 100,000 inhabitants, now singled out for attack. Mussolini recently declared that he is the Protector of Islam. That threat has now taken the form of Aerial bombardment which strikes at the shrine of the faithful.
