A GOOD PENNY TURNS UP.

An escape from a prison camp near Rome to Vatican City, brought Landing Seaman Penny into the news.

NATURAL SOUND.

ROLL CALL AT BOMBED SCHOOL.

The dastardly bombing of a Loudon County Council School has its aftermath in a Church Hall facing the wrecked building, where the first roll call is held since the raid. School-children (accompanied by parents and teachers) assembling, to answer to their names read from a dusty register retrieved from the wreckage. As quickly as possible classes were sorted out into parties and marched off to other schools in the district to resume their lessons.

Older Central School children after registering were sent to other places where friendly accommodation awaited them. Several of these kiddies were in the Dining Hall when the bomb fell. These youngsters are deserving of our heartfelt sympathy.
