

(6).

TITLE:- "RO-RAILER".

Picture:- Here she comes, running on the rails like a pukka railway engine. ... We offer --

--you the novel experience - without the pain - of being run over by the first vehicle of its kind ! It's to be hoped you feel honoured !

Now she "runs off the rails" just to show she's a pukka road motor-coach, too !

The Ro-Railer, as she's called, creates quite a lot of interest at --

--her first appearance. ... And now she is run back on the rails, just to show she really can do it !

The tyred wheels are lifted out of the way. ... You'll soon be able to buy a bus ticket, and --

--take a bus-and-train ride without leaving your seat.

It's a bit of a novelty being able to see ahead on a railway journey. ... Well, all good --

--things have an end, - so we approach the end of our little trip ! The railway company are to be congratulated on their enterprise in introducing, in the Ro-Railer, a useful addition to their rolling stock.
