SNOW IN CALIFORNIA ! The "sunshine State" has a
very unusual experience.

-U.S.A.-

Picture.:- Californians have had a shock. Something has
gone--

--wrong with the land where the sun shines--

--warmly and film stars twinkle brightly. Heavy snow has
covered--

--the landscape, and the - - yes - - it is the limit, isn't
it ?

Snow-men are rare sights here - Hello ! The dog's
jealous of him.

Cars are unexpectedly snow-bound;, a most unusual--

--experience, and there's nothing for the drivers--

--to do but wait for the thaw - a cold job.

Rotting perishable goods ! His heart warms to boot
legging ! That's the spirit !
