CAMBRIDGE CREW OUT - Light Blues  
brave bad weather in early practice  
for the Boat Race.  
- On the Cam.-

---

Picture:- If the Light Blues want to win the Boat Race  
this year, practice must be --

-- done despite unfavourable weather conditions. Sleet and  
snow at Cambridge hinders --

-- the selected crew from doing much except light practice.  
However, it gives the men an opportunity for further  
familiarising themselves with the new fixed rowlocks, which  
are to replace the swivel type as shown. Its early --  
*this year*

-- to attempt forecasts. Positions are not yet settled but  
the opinion offered by a competent judge is that this year's  
selection will equal, if not surpass, the crew which won last  
year's Race !
