"QUEEN OF THE ICE" - - Miss Sonja Henie, world's
champion skater, portrays "the poetry of motion" at
Davos.

-Switzerland-

Picture:- - Sonja Henie, - - the queen of professional and
the--

--despair of amateur skaters. Practically every judge puts
her at the top of the--

--class for perfection of movement and balance. On the ice
critics proclaim--

--her to be the personification of grace. She is 'skates'
ahead of any rival in this one-leg balance. Her--

--recent performances have shown that she has improved upon
her previous style. This is her new ice-waltz accomplished
with incredible ease. The inimitable--

--pirouette is a favourite item with her admiring audiences.
She has a continental public--

--as large as that of a cinema--

--star. Her skating amazes them, and her quiet beauty
charms them.

She is an 'ice' girl !
