RACE TO EARTH !

Parachutist beats autogiro

in 1,000-yards race from UP THERE to down here !

-California-

Picture.:-

Of all the - - er - - here is the--

--world's most novel race. Auto-giro versus parachute !
Which can descend quickest ?

Mr. Shoot got annoyed with Miss Giro's boasting
about how fast--

--she could rise, so Shoot bet he would take--

--the rise out of her by a race--

--down to earth, and this is it !

Giro is apt to think she's exclusive--

--with her new wind-mill effect, and goes up in the
air just to show off. Shoot has got inflated ideas,
too, but he's winning. He's bound to be one jump
ahead anyway.

Giro is buzzing with annoyance. She knows
she's being--

--let down. Shoot has won ! And he's so puffed
up over his success--

--that he has to be forcibly restrained. And
that, children, is why Auntie Giro never married.
She was too quick in the up-take--

--and too slow in coming down to earth.
