

NEWS IN BRIEF.

2-SP1041
2-4P1041

(1). Picture. :- The woman at the cross-roads. But this one helps--

--other people to beware. Mrs. McAllan watches the level crossing at Drymen, near Loeh--

--Lomond, a rare occupation for a woman. Her mother did it before her, and her grand-mother before that. The job is a sort of family heirloom. Their finances--

--need never feel a 'draught' while they shut that gate.

(2). Picture. :- America, Illinois! The weekly--

--greatest fire breaks out. Again--

--it is the worst in years. Starting--

--in a garage it gobbles--

--up two other buildings before--

--400 fire-fighters could--

--get it under control.

A million-dollars worth of--

--automobiles destroyed. Putting all this right again--

--should reduce the city's unemployment.

A fire that will make the--

--insurance companys go hot under the collar.

(3). Picture. :- This model shows how Manchester proposes to get--

--a strangle-hold on the slum problem. The scheme includes a public hall, shops--

--pram stores, and a communal wash-house, to keep the party clean.
