

31/12/54.

Arriving at London Airport after his flight from New York is Mr Hammarskjold. He is Secretary-General of the United Nations --- bound for China *to seek the release of the American airman prisoners.* on a delicate and highly important mission.

ROOFTOP ACROBATS.

High above the streets of Los Angeles --- two acrobats named Benny and Betty Fox have found a way to avoid getting run over

Incidentally, the traffic below --- is a hundred and twenty-five feet below

This is one kind of job you can't afford to fall down on

What a way to earn a living!

ANIMALS' PARTY.

This is the season of the year for parties --- and it's also the season for making good resolutions; so in the town of Hildesheim in Germany, Mady and Reinhold Kasten gave a party for all their pets; and each guest made a good resolution to drink and be merry, and not to eat the other guests

And then --- while the monkey was ringing out the old year and ringing in the new, the cat promised the dog she wouldn't scratch him unless he itched. So here's to all living peacefully together --- not like humans.
