

LENINERAD UNDERGROUND.

10 1 2.
17/1/56.

The latest means of transport in Leningrad is a new ~~underground~~
underground system --- with a fine-looking station lined with ~~xxx~~
marble. On the walls are plaques which tell the history of the
city of Leningrad. The opening ceremony was performed by the
time-honoured ~~of~~ cutting ^{case} a ribbon. It's one ~~instance~~ where
east and west could agree, on the same kind of agenda.
